

RETORT RACKS

Custom-Designed Retort Accessories

Allpax racks are designed to withstand the rigors of a retort room while maintaining tight tolerances for manual or automated use. Each rack style is custom designed for a specific application. Allpax has the flexibility to mimic your existing design or if you want to optimize your production potential, we can help engineer a better solution for your application.

FEATURES AND BENEFITS

- Available in injection molded plastic, stainless steel, aluminum with optional rubber inserts
- **Precision manufactured:** Tight tolerances from laser-cut metals or injection-molded using the latest molding technology
- **Perfect for Automated or Manual Systems:** All racks are designed using SolidWorks software to ensure that they will fit your application perfectly
- **Durable:** Metal racks are overbuilt where necessary and plastic racks utilize advanced polymers for strength
