

SATURATED STEAM

RIGID CONTAINER STERILIZATION

Custom sizing to meet your throughput

Perfect for replacing old vertical carbon steel retorts into a smaller footprint with higher capacity and efficiency. Also available with dual-mode retort option for future overpressure processing of rigid and flexible containers.

FEATURES AND BENEFITS

- Saturated steam cook
- Water spray cooling or flooded cooling
- Space saving orbiting or swing-open door
- Seamless integration with Allpax automation
- Dual mode overpressure process capability available
- Processes two piece, three piece and EZopen cans
- Processes Heat-Sealed containers and pouches
- Capable of ABRS Integration
- Ready for the addition of gentle motion agitation
- Jumbo sized capacity diameter and length available
