

ALLPAX MOBILE HMI - HAND-HELD INFORMATION AND CONTROL CENTER

Portable HMI for Operators, Maintenance, and Management

Allpax Mobile HMI is a convenient hand-held control which allows you to review batch system reports and enter MIG entries from the retort. The Mobile HMI includes an instrumentation calibration tool and allows for local component override. Mobile HMI also features a 3D documentation e-reader. Allpax Mobile HMI allows for efficient access to information with local control at your fingertips as well as access to maintenance information including electrical drawings, technical notes, mechanical drawings and operator manuals.

FEATURES AND BENEFITS

- Rugged portable system interface
- Provides operator and maintenance mobility
- Improves efficiency in maintenance tasks
- No more searching for drawings and manuals
- Instrumentation calibration tool
- Point of contact troubleshooting
- Local component override
